

WTC Machinery is a global leader in designing and building machinery and tooling for heavy equipment repair facilities.

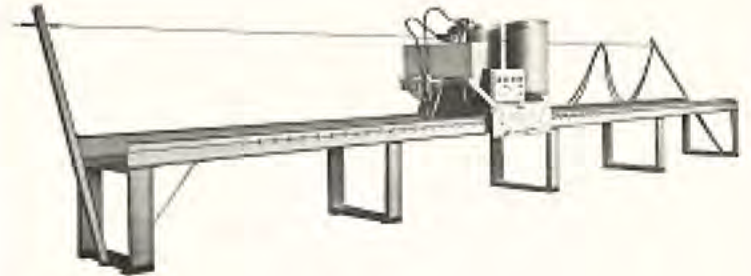

WTC MACHINERY
Engineered to perform. Built to last.

CT-1 Track Link Welder

Overview

The CT-1 Track Link Welder is a precision tool which economically restores worn track chain links. Efficient, profitable rebuilding is enhanced by convenient operator controls and large flux and welding wire capacity. Overall design simplicity results in low maintenance cost and long-term durability. The optional wire brush attachment and flux carts shorten preparation time to further increase productivity.

Specifications:

Welding Torches:	2 x 600 Amps
Wire Capacity:	2 x 500 lb (230 kg) Barrels
Optional Wire Spool Capacity:	120 lb (54 kg)
Welding Bed Length:	40 feet (12.2 meters)

Electrical

Electrical Supply:	72 kW
Standard Voltages:	Three Phase
	208V / 60 Hz
	220V / 50 Hz
	230V / 60 Hz
	385V / 50 Hz
	415V / 50 Hz
	460V / 60 Hz
